Abstract

This research was aimed to discover a significant difference by comparing samples who got a treatment by using Instagram Vlog and those who were not in the eleventh grade of SMKN 1 Sungaiselan. This study adopt a quasi-experimental design and also an experimental. 46 pupils were included in the sample from two classes, with 29 placed as experimental group and 17 as control group. Pre-test and post-test procedures were used by researcher to assess pupils' speaking skills. The test was analyzed by SPSS 24. The research found that the mean in experimental class (Mean= 67.38) was higher compared to control class (Mean=57.38). In conclusion a significant effect on speaking skills by using Instagram Vlog was discovered.
